

6.005 Project 2 Team Contract

Grant Gunnison, Nicole Brimmer, Seve Esparrago

Agreement:

Goals

Everyone in the group is aiming for a perfect score and hopefully will have time to create some extra features.

As a group we do not think that time constraints will hold us back. We are planning are starting early and finishing by the end of the weekend, Dec 8th. All of us agree that we will be able to put in the time.

Meeting Norms

Our meetings will be held at 400 Memorial Drive, the student center or any classroom on campus.

We will use in-class time as either general updates and task delegation, or straight work time. If we do not feel like we need to be in class to work then we will probably work in a quieter environment. *Note: TAs and instructors will be present at lecture halls and recitation rooms.*

Seeing as we live on the west side of campus, we should and will meet outside of class quite often. Meetings can be intermittent, but are typically expected to last at least 45 minutes.

Responsibility of tasks will be recorded via google doc that is editable by all members of the group.

Work Norms

We will work on one project as a group and build it as a team.

Almost all work will be done in at least a group of 2. But delegation will definitely be done.

After reviewing the project and its deliverables in detail, we will distribute work and set deadlines appropriately.

Work will be reviewed by at least one other member in the group before a commit/push.

If someone is not doing their share of the work, we bring it up to a TA, but don't anticipate having any issues.

Decision Making

Consensus of all members is needed before making a decision.
